

e-Lobby is an affordable yet robust Visitor Management System

to manage and track your visitors. It provides comprehensive, enterprise-class visitor registration, tracking, reporting, badge printing and employee time attendance. Whether you have guards or receptionists greeting and processing visitors, e-Lobby enables your organization to:

- Simplify visitor check-in and check-out
- Improve and automate lobby security
- Manage access to your premises
- Print high quality, professional looking visitor badges

- Accurately capture detailed visitor information in seconds (using MyKad, Passport or other type of identification documents)
- Generate informative reports for management analysis
- Enhance your image by dealing with visitors more professionally
- Make visitors and employees feel safer
- Keep visitor information confidential

e-Lobby systems are installed in many organizations, including MNC, multi-tenant office, residential buildings, universities and factories
